

ONE TRUSTED PARTNER

Strategic Security & Compliance

MegaplanIT is a security and compliance firm specializing in over 35 services designed to protect cardholder and other sensitive data. Working alongside your team, we help identify opportunity areas to enhance security for your secure in-scope networks, systems, and website applications.

Our expert security consultants and QSAs are fully certified and have decades of experience helping businesses like yours stay safe from cyber threats. We build long-term relationships with our customers and provide holistic services to meet all your security and compliance needs.

MegaplanIT has handpicked the best security and compliance professionals in the industry, who have exceptional qualifications and experience.

When you work with MegaplanIT, you get a long-term partner to help you get secure and stay compliant, with no hidden costs, no surprises, and minimal effort on your part.

Managed Security Services

Based out of our State of the Art 24/7/365 Security Operations Center in Scottsdale, Arizona, we provide a suite of managed services to ensure your business stays safe from cyber attacks.

Compliance Assessments

Designed to help your organization become and stay compliant with PCI frameworks and standards applicable to your business while reducing your costs and level of effort over time. Our assessments are tailored to the needs of your business to ensure accuracy and consistency.

Security Penetration Testing

Our certified security testing services are designed to help you find and fix weaknesses in your networks and applications as well as prepare your digital infrastructure to withstand the latest cyber threats.
