

Approved Scanning Vendor Portal Overview

Minimize Risk and Ensure Compliance With Our PCI SSC Approved Scanning Service

In order to be PCI DSS compliant, your organization must adhere to **requirement 11.2**: “Run internal and external network vulnerability scans at least quarterly and after any significant change in the network. Quarterly external scans must be performed by an Approved Scanning Vendor (ASV).”

At MegaplanIT, we use comprehensive network scans to identify vulnerabilities in your organization’s environment and provide remediation assistance and recommendations to help you achieve your quarterly Attestation of Scanning Compliance. With thousands of approved scans under our belts, nobody is better qualified to help your organization through all aspects of PCI DSS compliance.

MegaplanIT ASV Portal Key Benefits

Our MegaplanIT Megaportal is a cutting-edge, comprehensive solution designed to assist organizations in conducting their PCI-DSS ASV scans efficiently and effectively. By combining the power of advanced scanning technology with user-friendly interfaces, we have created a portal that simplifies the process of identifying, analyzing, and resolving security vulnerabilities for our customers.

This solution brief outlines the key-features and benefits of our ASV Scan Portal.

Enhanced Security Posture

By regularly identifying and correcting vulnerabilities, organizations can improve their overall security posture and reduce the risk of security breaches.

Compliance Management

Our ASV Scan Portal simplifies the process of meeting compliance requirements, such as PCI DSS, by automating vulnerability scanning and providing actionable insights.

Time and Cost Savings

By streamlining the vulnerability management process, our solution saves organizations valuable time and resources that can be redirected towards other critical security initiatives.

Continuous Improvement

Regular scanning and reporting enable organizations to track their progress and continuously improve their security posture.

Key Features

APPROVED SCANNING VENDOR

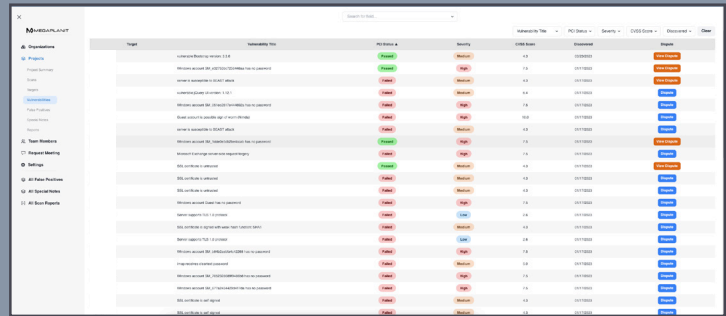

Intuitive User Interface

Our ASV Scan Portal offers a streamlined, easy-to-use interface that simplifies the process of managing and conducting vulnerability scans. Users can easily navigate the portal, schedule scans, view scan results, and generate reports.

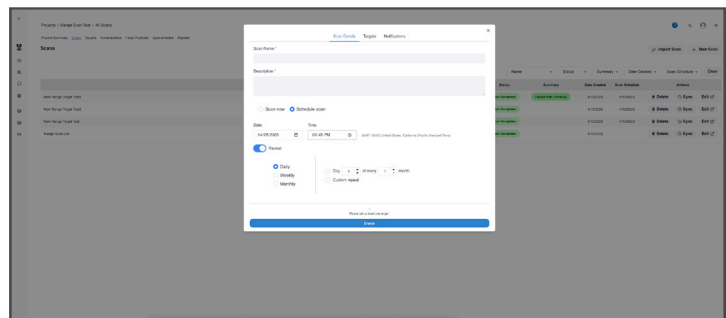

Advanced Scanning Technology

We leverage state-of-the-art scanning technologies to ensure that our ASV Scan Portal delivers accurate and up-to-date vulnerability information. Our scanning engine identifies a wide range of security vulnerabilities, including OWASP Top Ten, SANS Top 25, and PCI DSS compliance issues.

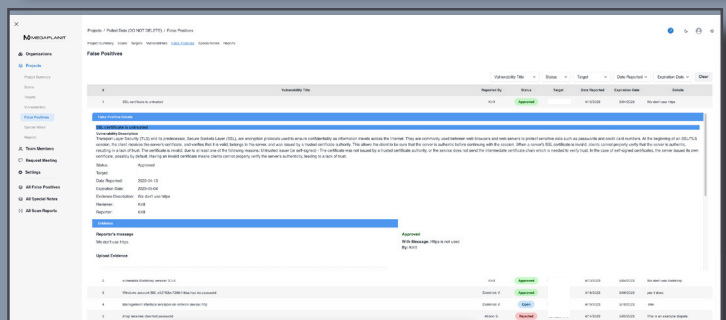

On-Demand and Scheduled Scanning

Our ASV Scan Portal provides the flexibility to run scans on-demand or schedule them to run automatically at specified intervals. This ensures that organizations can maintain continuous visibility into their security posture.

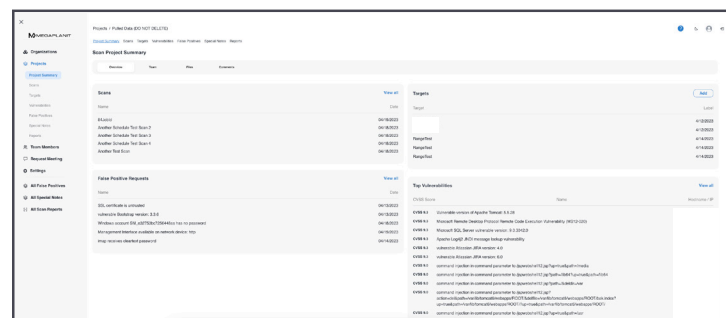

False Positive Tracking and One-Click Submittal

Our solution enables customers to easily track and manage false positives, with a one-click submittal process to report any inaccuracies in the scan results.

Comprehensive Reporting and Analytics

Our ASV Scan Portal generates detailed reports and analytics to help customers effectively prioritize and manage vulnerabilities. Reports include vulnerability severity, remediation recommendations, and historical trends, enabling customers to make data-driven decisions about their security posture.

Additional Features

APPROVED SCANNING VENDOR

Easy-to-Use Understandable Workflow

The ASV Scan Portal features a clear and logical workflow, ensuring that users can quickly and easily navigate the platform and efficiently manage their vulnerability scanning process.

Unlimited Rescans

Customers have the option to perform unlimited rescans, allowing them to verify the effectiveness of their remediation efforts and ensure that identified vulnerabilities have been properly addressed.

Scalability and Performance

Our ASV Scan Portal is built to scale and accommodate the needs of organizations of all sizes. With cloud-based architecture and performance optimization, customers can rely on our solution to handle their growing security needs.

24/7 Customer Support

We are committed to providing top-notch customer support. Our team of experts is available 24/7 to assist customers with any questions or concerns related to the ASV Scan Portal, ensuring a seamless and hassle-free experience.

Next-Day Support

In addition to our 24/7 customer support, we offer next-day support for urgent issues, ensuring that our customers receive prompt assistance when they need it most.
